

SAKTHISARAVANAN T

FullStack Developer

Erode,TamilNadu | sakthisaravana101@gmail.com | LinkedIn | Github

SUMMARY

Full Stack Developer with significant experience in designing and developing scalable applications. I have worked with diverse organizations, ensuring a practical approach to my profession, leveraging my expertise in both frontend and backend technologies to build efficient solutions that meet business objectives.

PROJECTS

Excellence TNPSC Academy Live	june-2025
- Developed a responsive web application using React, HTML, CSS, and JavaScript, ensuring seamless user experience across devices. - Deployed the application on Netlify with optimized performance and fast loading times for end-users. - Implemented clean UI design and structured navigation to enhance accessibility and user engagement.	
CSG Education System	July-2025
- Built a responsive academy platform for course browsing, purchase, and learning. - Implemented user authentication with structured course modules. - Deployed the system with optimized performance and smooth navigation.	

EXPERIENCE

FullStack Development InternShip At INFRONEX	June 2025 - Aug 2025
- Gained real-time experience in full-stack development by working on responsive web applications with user authentication, structured modules, and smooth navigation. - Improved scalability, performance optimization, and deployment skills through hands-on involvement in end-to-end project development.	

SKILLS

Frontend:HTML,CSS,BootStrap,JavaScript,React Js
Backend:Java/SpringBoot
DataBase:My SQL
Tools:Git,Github,Postman

EDUCATION

B.Tech-Artificial Intelligence and Data Science	Oct 2021 - May 2025
Nandha Engineering College	
During my college period, completed projects on Lung Cancer Detection using Vision Transformer (ViT) and House Price Prediction using Machine Learning with Flask, applying AI and data science techniques to solve real-world problems.	

ADDITIONAL INFORMATION

Languages: English ,Tamil Certifications: Completed an Artificial Intelligence Primer course and earned certification from Infosys Springboard. Awards/Activities: Developed a Gesture Controlled Drone and won 1st Prize in Innovation Day at Nandha Engineering College.
